## OPTIMISM FELT AS DRILL HITS SIMPSON SAND

Oil Men Believe Indications  
Favorable to Pay Sand  
on Surratt Farm.

TELL TALE SATURDAY

Valerius Interests Drilling  
Well; Many Visit Scene  
of Excitement.

That the M. M. Valerius Oil and Gas company's well on the Surratt farm in the southwest corner of the northeast quarter of section 21-3-4 will be a big oil well is the opinion of those who have seen it today. The bit touched the sand at 1135 feet early this morning and drilling stopped immediately. Oil rose 100 feet in the hole.

The hole is ten inches with about 150 feet of open hole in the bottom. The eight inch casing is being run this afternoon and the well will be brought in as soon as this is done. Barring accidents, Saturday ought to tell the tale so far as this sand is concerned. The sand was not penetrated more than six inches, and the thickness of the sand will determine the size of the production.

The well is making some gas, but this comes from a sand above the oil bearing formation. This upper sand also carries some oil, but not enough to create any excitement.

The oil is heavy, similar to the Healdton liquid.

The well is about four miles south west of Vanoss. It was started November 25, 1922, by the Dobbie Brothers. They closed down about the first of the year, and later the property was taken over by the M. M. Valerius Oil and Gas Company, a subsidiary of the H. F. Wilcox interests.

Valerius in Charge.

Mr. Valerius, who is in charge of the well, is one of the well geologists of the southwest, being at this time president of the geologists association for Oklahoma. While he will make no estimate of what the well will do, he believes it will prove valuable.

One scout explains that geological reports indicate there ought to be 300 feet of sand in that member of the Simpson sands. In this case the well would be one to attract attention all over the world.

Many people from Vanoss and Ada have been visiting the well today. More planning to go out this evening and tomorrow.

What makes the well look so good, oil men explain is the fact that the oil is coming from a member of the Simpson sand. In other words in this county, which have reached the Simpson, the sand has carried water. Many have thought that the Simpson carries oil in places the exact locations are found in this looks like one of the sought for locations.

## NEVADA TOWN IN PATH OF FLAMES

Business District of Goldfield  
Flattened by Destructive Fire.

(By the Associated Press)  
GOLDFIELD, Nev., July 6.—Fire that started at 7:30 o'clock this morning burned three buildings in the business district and threatens to wipe out several blocks, unless checked by water or dynamite both of which are being used.

The Brown-Parker garage, the Nevada hotel and Wood-Sullivan Hardware store have been destroyed and the fire is burning along Main street between Main street, and Crooks and Ramsey streets, being fanned by a southeast wind. Attempts to stop it by dynamiting several small buildings proved futile as the frame structures burst open and made even better fuel for the blaze. The fire is believed to have started in a house, where illicit liquor was being made.

Of the 2,000 persons who lived in Goldfield in the great days of 1910, scarcely 1,000 are left, but the camp has been doing considerable business with other camps.

The fire started in what was once the old tenderloin district and finally spread to the Masonic temple which was the old Montezuma club building, leaped across the street and destroyed the building that once housed Tex Rickard's saloon, when that promoter was making his start.

## News Flashes of Latest Happenings Over U.S.

(By Central Press)

CHICAGO, July 6.—Miss Esther Raddell is a business associate of J. Wallace Ponder, wealthy photographer. But Mrs. Ponder thought their relations were a little more than intimate and business called for. Particularly after her husband started a divorce action. She had them arrested. But all's well that ends well. Ponder and his wife were reconciled and Miss Esther Raddell's name was cleared of all stigma.

(By Central Press)

WHITE PLAINS, N. Y., July 6.—Mrs. Laura Noyes Davidson, wife of the former mayor of Baltimore, Robert Davidson, has been granted a retrial of the divorce proceedings previously decided in favor of her husband. Mrs. Davidson is fighting the charges of her husband that she had had improper relations with a druggist of Irvington, N. Y. She is a sister of Mrs. L. Davidson. Mrs. Clara Noyes, president of the American Red Cross society.

(By Central Press)

NEW YORK, July 6.—Miss Olga Ralph has won the first step in her fight in the courts here to compel John H. Kirby, wealthy Texas lumber magnate, to continue an annuity of \$6,000 which she alleges he promised to pay her if she would surrender her legally adopted name of Kirby after taking it at his request and acting as a companion to him on his travels. She charges Kirby recently stopped making the payments.

(By Central Press)

CHILLICOTHE, O., July 6.—Speaking of the "way back when" Mrs. Mary Minar Dunlap says they are all pickers. Mrs. Dunlap recently celebrated her one hundredth and fifth birthday. And she 'members' way back when, in her childhood days, her playmates were the papooses of the Shawnee Indians who then lived near her home. Mrs. Dunlap is hale, hearty and she expects to keep right on celebrating birthdays.

## Brew Works— She Objects— Jail Opened—

"Wheel Down with prohibition." Such feminine information sent out with penetrating shrieks of festive glee, disturbed the peace of tranquility of the city only too soon for proper rest during the siesta hour Thursday afternoon.

Business men strained their necks from behind a counter and others deserted the comfort of an electric fan in time to see a couple of policemen in argumentative pursuit of their duty.

Battling down all arguments concerning the fact that a Cherokee Indian woman might be immune from arrest, police brought the obstinate one to the confines of the city jail.

Her husband was also included on the general charge of being drunk.

## LABOR SUPPLIES TO AID 12-HOUR WORK DAY PLAN

Gary Pledges Relief Within  
Short Period if Foreign  
Supply Sufficient.

REPORTS TO HARDING

Gompers Maintains Pledge is  
Tainted With Bluff  
and Insincerity.

(By the Associated Press)

NEW YORK, July 6.—Entrance into the United States of labor supplies from Mexico, the Philippines, Canada and a few European countries soon will make possible the abolishment of the 12-hour day in the steel industry. Elbert H. Gary, chairman of the board of the United States Steel Corporation announced today.

Mr. Gary's announcement followed the action of President Harding in making public yesterday before sailing from Tacoma correspondence passing between him and the American Iron and Steel Institute in which directors of the institute pledged themselves to abolish the 12-hour day when a labor supply was assured. Gary declared that the 12-hour day would be abolished within a reasonable length of time. As the supply of labor increases, the long day will gradually be abolished.

WASHINGTON, July 6.—Promises agreed to by Judge Elbert H. Gary and other heads of the steel industry in correspondence with President Harding to eliminate the 12-hour day in steel mills at some future date were taken by President Samuel Gompers of the American Federation of Labor as "tainted with bluff and insincerity."

Referring to the letter made public yesterday by President Harding Gompers expressed his surprise that the president "should consider it worth while to give it to the public."

"I advise the steel workers not to expect too much as a result of the courtesies exchanged between the president and Judge Gary," Mr. Gompers said.

TACOMA, Wash., July 5.—President Harding announced here Thursday he had received a promise from Judge E. H. Gary, chairman of the United States Steel corporation, Charles M. Schwab and a dozen other big steel manufacturers that the twelve-hour day in the steel industry would be abolished just as soon as there was a surplus of labor.

The president made the announcement during his speech in Tacoma stadium just before sailing for Alaska. He also made public at the same time copies of letters passed between himself and Judge Gary. "It is very gratifying," said the president, "to be able to announce an important step in industrial progress."

"I have received a joint communication from a large majority of steel manufacturers in America in which they have undertaken to abolish the twelve-hour day in the steel industry, at the earliest moment that the additional labor shall be available.

"I wish to congratulate the steel industry on this important step."

## Attorney General to Back Warehouse Law by Demurrer

(By the Associated Press)  
OKLAHOMA CITY, July 6.—The attorney general's office will defend the warehouse law passed by the Ninth legislature, it was announced today by Attorney General George Shorth. He said that a demurrer probably would be filed late today in Enid to the suit brought there attacking the constitutionality of the law.

The law provides \$1,250,000 for loans to co-operative organizations to build warehouses.

The attorney general announces that the Oklahoma Cotton Growers association has engaged counsel to assist him.

Canadian Immigration Increases

(By the Associated Press)  
OTTAWA, Ont., July 6.—Immigration into Canada increased 31 per cent during the first four months of 1923 as compared with the same period a year ago, according to figures compiled by the Department of Immigration and Colonization.

Up to May 1, the figures show, 22,140 immigrants entered the Dominion to take up permanent homes.

Claim Crassin Removed

(By the Associated Press)  
LONDON, July 6.—It is officially announced that Leonie Crassin has been removed from his position as head of the Russian soviet delegation in London, says a Reuter's dispatch from Moscow today.

## SEEK NEGRO FOR MURDER OF GIRL

Governor Found Slain by  
Girl Chum; Negro is  
Seen Near Home.

(By the Associated Press)

STARSDALE, N. Y., July 6.—Madeline Horner, 16-year old daughter of a farmer near here today stood as the one best hope of Westchester county authorities to fasten on a negro, as yet uncaptured, the murder of Dorothy Kauffman, youthful Mennonite governess whose body was found in the home of McGruder Coughlin where she was employed.

Miss Horner, the slain girl's chum, said she saw a negro loitering near their home a few hours before Miss Kauffman is believed to have been slain.

Other witnesses told of seeing a negro turn his coat wrong side out as he was leaving the neighborhood, evidently to conceal blood stains.

Mr. Coughlin, an engineer, had gone away with his family for the holiday, leaving Miss Kauffman alone in the home. Miss Horner visited her in the morning and made an appointment to spend the night with her. Arriving about 2:30 a. m. after attending a dance, she found Miss Kauffman's body with several stab wounds on the floor near her bed.

Little is known about the dead girl. Miss Horner said all she recalled about herself was that she had been a member of a Mennonite family living in Somerset county, N. C., and that she had left home tired of the life of a country teacher and was preparing for a position in city schools. She took the position as governess to aid in realizing this ambition.

(By the Associated Press)

CHICAGO, July 6.—Motion picture films showing scenes around Shelby preceding the Dempsey-Gibbons fight, but not showing the actual fighting between the two pugilists, were submitted to federal authorities for inspection. It was said that government authorities would permit the pictures to be exhibited.

The company owning the films notified the authorities of their presence in the city. It was first reported that the pictures of the actual fighting had been seized.

AUTHORITIES SEARCHING FOR  
MISSING BARTLESVILLE GIRL

(By the Associated Press)

BARTLESVILLE, Okla., July 6.—Authorities so far have been unable to find any trace of Susie Kilpatrick, 16-year-old daughter of Mrs. Nellie Cook, who disappeared from home on the night of July 3. According to her mother the girl was in her night dress and bare foot when she left home. She took her shoes along with her, however. Police say they are looking for a man who was said to have been calling on the girl against the wishes of her parents.

ANY METHOD MAY BE  
USED BY NEW PARTY

(By the Associated Press)

CHICAGO, July 6.—That any weapon may be used in obtaining political control of the government by the new Federated Farm-Labor party was indicated in tabling a resolution by the convention which would exclude any group from membership that advocates force or violence and which in any way affiliates with organizations that sought political power other than through the ballot.

Water on the brain is seldom due to a thirst for knowledge.

## ENID BACHELOR FOUND VICTIM OF ASSAILANT

(By the Associated Press)

ENID, July 6.—Lee Vandeventer, 35, a bachelor farmer living nine miles south of here is unconscious in a local hospital today suffering from injuries which may prove fatal following a mysterious attack on him at his home Tuesday night, according to county officials here, who revealed today that they were trying to locate his assailant.

Vandeventer was found unconscious by a farm hand in a corner of his barn with head crushed and his tongue almost severed. Officials investigating found a bloody spot in a wheat field near the house where there were evidences of a struggle. Here also were found several articles which Vandeventer had been carrying in his pocket. No motive for the attack has been established.

## SHRADER GRANTED BAIL ON CHARGE

Alleged Accomplice Held in  
Murder Case Permitted  
Bond of \$3,000.

J. H. Shrader, held with J. M. O'Neal, in preliminary hearing before Justice Joseph Anderson last Saturday on a charge of murder in connection with the slaying of Walter Floyd, city marshal at Roff, on June 23, was granted bail by the court in habeas corpus proceedings this morning and his bond set at \$3,000.

Up to late hour Friday afternoon bondsmen had not appeared to arrange for the freedom of Shrader, who is held in the county jail. O'Neal, who was also held on the murder charge did not request bail and is being held in the county jail. O'Neal, who was brought here from McAlester where he was held in the state penitentiary as a precautionary move before being brought here for arraignment and preliminary hearing, was not returned to McAlester after the hearing.

It is generally reported that bondsmen will bring about the release of Shrader before the end of the week.

Owing to the fact that no date for the next regular term of district court has been announced, the date for the trial of O'Neal and Shrader has not been arranged.

## Search Being Made for Stillwater Girl Believed Kidnapped

(By the Associated Press)

STILLWATER, Okla., July 6.—Search is being made today for Miss Musa Bass, 16-year-old daughter of Mrs. Annie Horner living near Glencoe, 12 miles northeast of here. The girl has been missing from her mother's home since the evening of July 1. Her mother and step father told the authorities they believed she had been kidnapped.

When Miss Bass was last seen she was going to her room to retire. Next morning her bed was found undisturbed and Miss Bass could not be located. There was no evidence of a struggle, according to reports. Mrs. Horner says none of the girl's clothes are missing other than the dress she wore. The girl is described as tall and slender and weighing about 125 pounds.

French Leader Dies

(By the Associated Press)  
PARIS, July 6.—Vice-Admiral Ferdinand Jacques de Bon, staff chief of the naval general staff, died at his home today after a long illness. He was head of the French naval advisory board at the Washington armament conference.

Water on the brain is seldom due to a thirst for knowledge.

## MOBBED NEGRO IS CLAIMED INNOCENT

(By the Associated Press)

MEXICO, Mo., July 6.—Reports were flying here today that James Scott, negro, was the innocent victim of a mob which hanged him at Columbia April 29, and that the perpetrator of the crime for which Scott was hanged is in jail here.

The rumors followed the appearance in Mexico yesterday of the 14-year-old white girl on whom an assault had been attempted by a negro. She was accompanied by her parents and Prospecting Attorney Hulen of Boone county who came to see the negro Ollie Watson, a negro taxicab driver of Columbia being held here charged with a statutory offense against a negro girl. The white girl's father is a professor at the University of Missouri.

Neither the girl nor her parents would make a statement following a trip to the jail to look Watson over.

Rumors have drifted in from Columbia for several hours that the man hanged from the bridge near there was innocent of the crime, and that several negroes saw a woman on the bridge shortly before the assault. Scott pleaded his innocence to the mob that battered down the doors of the jail and took him from his cell, saying that Watson, his cellmate had confessed that he was the guilty man. The lynching of Scott followed.

Attorney General Jesse W. Darratt in St. Louis admitted that he had been investigating but refused to make any further statement.

## HOLDENVILLE TO SEND CLUB HERE

Lain and Orr Responsible for  
Invasion of Ada Diamond  
With All-Star Club.

With the word of Yandell Lain and Charlie Orr of Holdenville, formerly of Ada, that Ada amateur baseball club would meet the best club of their season when the Holdenville club comes here Sunday for one game, local baseball fans are whetting their anxiety for the much-talked-of tilt.

Lain and Orr, former Ada fans, are personally sponsoring the invasion against the old home town team and promise a tilt of high-pitched rivalry here Sunday. Manager A. O. Green has heard the rumblings of threats from the Holdenville aggregation would find paring his club for the match, stating the former Ada parents of the Holdenville aggregation would find much competition on the local diamond.

Word has been received here that Sealy, former Wilson twirler and one of the best moundsmen to make appearance on the local diamond will perform for Holdenville. Williams will do the delivery work for Ada and his usual ability on the pivot will be expected.

## ARMY PLANE LANDS AT PENNSYLVANIA TOWN

(By the Associated Press)

INDIANAPOLIS, July 6.—The army plane S-5 piloted by Capt. Miller of the United States air service, in the National balloon race landed yesterday afternoon at 4:15 o'clock at Ford City, Pennsylvania, according to a telegram received today by the Indianapolis News. The message signed by Capt. Miller stated that the balloon had made 375 miles.

## GIRL WOUNDED WHEN BORDER COPS FIRE

(By the Associated Press)

MALONE, N. Y., July 6.—Residents along the Canadian border are aroused over the wounding of Miss Belle Baker last Tuesday night and subsequent arrest of three federal officials charged with assault, the case coming to light today with the arrest of the officers. It is alleged that they were searching for rum runners and fired on the auto containing Miss Baker and her father when the latter refused to stop.

The directors of the Malone chamber of commerce adopted a resolution requesting Senator Wadsworth and Congressman Snell to use their influence for securing an investigation of the "indiscriminate use of firearms in stopping suspects from across the border." The resolution also suggests that government agents be uniformed in order that they may not be taken for hold up men. Mr. Baker said he thought the officers were robbers when they ordered him to stop and that he stepped on the accelerator when they fired on him and his daughter. One bullet struck the girl in the side, but did not wound her seriously.

## HARDING AT SEA ON ALASKA TRIP

President Enjoying Final Lap  
of Trip on Board  
Henderson.

(By the Associated Press)

ON BOARD THE U. S. S. HENDERSON, July 6.—President Harding was beyond American boundaries today enjoying life on the sea and dividing his time between cabin and deck on the American transport Henderson. He left Tacoma late yesterday accompanied by Mrs. Harding and members of the party amid the salutes of naval craft in Tacoma and Seattle waters. Escorting the Henderson are two American destroyers, the Hull and the Corry, equipped with depth finders and commanded by officers who recently made charts of the Pacific shore water depths.

The attendance of the destroyers is due merely to the extraordinary precautions of the naval authorities to surround the president with every possible safety during the voyage. The course follows the inland passage from Puget Sound to Alaska and touches open water of the Pacific only for a few miles of the trip.

The Henderson's speed was kept at an average of 12 knots and with long, smooth running with the roll almost imperceptible as the 40,000 horse power reciprocating engines drive the vessel through the water. The chief executive plans to sever himself from governmental cares during the voyage and Mrs. Harding inspected the ship and met its personnel. Both are enjoying in the fullest measure the first uninterrupted rest since their departure from Washington.

Balloonist Forced to Land

JAMESTOWN, N. Y., July 6.—H. E. Honeywell and P. J. McCullough of St. Louis, who left Indianapolis in the national balloon race July 4, were forced to land at Brockton, Chautauque county, last night after they had been in the air 29 hours and 11 minutes, traveling 510 miles. The balloon was out of ballast and this forced the landing.

Suzanne Wins Again

WIMBLEDON, Eng., July 6.—Suzanne Lenglen of France will retain her title as woman lawn tennis champion winning by defeating Miss Kathleen McKane, first ranking English woman, in the finals of the Wimbledon tournament. The French star won in straight sets, 6-2 and 6-2.

## AD SCHEMES TO TO PASS BOARD

Secret Committee to Pass on  
all Advertising Propositions  
Brought Here.

That any advertising scheme must meet the rigid tests of inspection by a secret committee before the merchants of Ada will take part in it, was the decision reached at the meeting of the Retail Merchants association Thursday evening, when the regular monthly luncheon was enjoyed.

The discussion brought out that the merchants have been canvassed by individuals and foreign organizations until they are getting tired of it. They agreed to stand by the plan of not patronizing any of them until they have been referred to President J. E. Harris or Secretary J. E. Williams. Either of these will turn a proposition to the secret committee who will pass on it and approve or reject it.

The association agreed to continue the Trade Day programs, the next one, after tomorrow, to come October 6.

The merchants also agreed to keep their places of business open on the nights when the workers at the cement plant get their pay. This action was taken after some of the merchants had been requested by the workers to do so. These nights usually are the fifth and twentieth of each month. When the pay day falls on Saturday, the present plan will not be disturbed.

## Close Contract to Purchase Windows for Local Church

Rev. E. O. Whitwell states that a contract was closed Thursday for the windows of the new Presbyterian church building. These windows are worth about \$3,000. They will be delivered in about 90 days.

The three large ones, on the south side will contain full life size paintings of the Crucifixion, Easter and the Ascension. Three on the north will contain half life size paintings. Three others will contain medallions and six will contain emblems, including the American Legion and the national flag.

Rev. Whitwell says that about half of the windows have thus far been subscribed for by individuals and organizations and that probably several more will be taken. He figured very closely with several firms before letting a contract and considers that he secured the windows at a bargain price.

## MEXICO TO REQUIRE INVOICE WITH ALL PARCEL POST MAIL

(By the Associated Press)

MEXICO CITY, July 6.—All parcel post shipments from foreign countries to Mexico must be accompanied by a commercial invoice, certified by the Mexican consul nearest the point of shipment, according to a recent government order. For a shipment less than \$5, the certification is free. From \$5 to \$50 the charge is \$1 and from \$50 upward the charge is \$2.

Shipments arriving without an invoice will result in a fine being imposed of 25 centavos for goods valued at less than 100 pesos, and 50 centavos for those valued at more than 100 pesos.

Notice Royal and Select Masters

There will be a special assembly of Ada Council No. 10, of Royal and Select Masters, Saturday evening at 7:30 o'clock sharp, for work. All Council Masters are cordially invited.

You can make good things even better with Mrs. Tucker's

SO many women tell us of the improvement Mrs. Tucker's Shortening has made in their cooking and baking, that we believe you would be glad to hear about it, too.

Mrs. Tucker's, you know, is a pure vegetable shortening. It is as light and snowy as whipped cream, with all the richness of butter, but with none of the heavy greasiness of lard.

For frying meats or vegetables, for making hot breads or pastry, Mrs. Tucker's is ideal. It cannot possibly injure the delicate flavor of any food. Just try one pair of Mrs. Tucker's. You will like it! It is made right here in the South, and comes to you always fresh.

Be sure to get the blue pall with Mrs. Tucker's picture on it.

*Mrs. Tucker's Shortening*

Made exclusively of choice Cotton Seed Oil. The South's own cooking fat.

Good to the last drop

The restaurateur, whose patronage is due largely to the uniform flavor of his coffee, is usually proud to identify it as Maxwell House.

### GREEN-BUSTER

The marriage of Mr. Henry Green and Miss Chloe Buster was solemnized at the home of J. H. Green of Durant, Jun 18 at 8:30 p. m. it is learned here. The ring ceremony was used. Rev. E. G. Butler officiating. The wedding was a very quiet event, attended only by the family and a few friends.

Mrs. Green spent most of her life in Ada, having come here, when a very small girl. She was a graduate of East Central and Oklahoma Baptist University of Shawnee and was quite successful as a teacher. She was a member of the faculty of O. B. U., having taught foreign languages there. She will teach at Maud next term.

Mr. Green is in government work and will attend O. B. U. next term.

### CHURCHES

**First Christian Church.**  
Were you in your place at the services of the church last Sunday? If you were not, the Lord missed you, and will expect you to tell Him why you were not there. You cannot redeem the lost time, but you can avoid another loss by doing your duty and your bit. Be sure to be in your place in the services of the church Sunday.

The church is no stronger than its weakest member. Do you represent strength or weakness for your church? Weakness may be overcome by feeding on the things of God. Those who do not attend the services of the church cannot expect to grow in the strength of the Master.

Our regular services will continue as usual and you are urged to attend them. Bible school at 9:30; morning worship at 11, and evening service at 8:15. We will meet you at the church.

Woman's Missionary Society will meet Monday at 3 o'clock with Mrs. N. P. Myers, 715 S. Rennie.

Our regular meeting of the Building Association will be Monday night at 8 o'clock. All are urged to attend.

## OBITUARY

The thirteen-month-old baby of Mr. and Mrs. Lee Cook 1012 South Stockton Avenue died this morning at four o'clock. Funeral services will be held at the home at six o'clock this afternoon followed by interment at Rosedale cemetery. Reverend J. H. Ball will conduct the service.

Charles Deaver, city commissioner of finance, was in Oklahoma City today on business.

Oleta Montgomery, Ruth Burton and her mother, left today for Estes Park, Colorado, where they will attend the national convention of the Pi Kappa Sigma Sorority. They expect to be gone about eleven days.

### Garage Man Shot

(By the Associated Press)  
GALVESTON, Tex., July 5.—J. R. Salmon, a garage man of League City, was shot nine times and probably fatally wounded while riding in an automobile near his garage today. Salmon was taken to a hospital at Houston. No arrests have been made but Sheriff Kirk is investigating.

## COLLEGE NOTES

By Roy McKeown

### IMPORTANT ASSEMBLY AT COLLEGE AUDITORIUM

Assembly this morning was the scene of singing by the students, announcements by President Linscheid and singing by the girls glee club of the college.

The meeting was opened with singing by the student body, led by Miss Margery Ballard. Old songs were rendered and a new selection learned.

The announcements included notices of meetings of various classes, most of whom plan social occasions soon.

President Linscheid is in receipt of a letter written by Dr. Frank P. Leavitt, who was a visitor to the school about two weeks ago.

Dr. Leavitt, who stands high in educational circles and who is interested in vocational education, commended the local institution very highly, declaring that the spirit shown by the faculty and students here toward the phase of education on which he was speaking was the best of all the schools he had visited on his tour.

He also made the statement that in the one day spent here he believed he had accompanied more than ten two or more days at the other schools visited. He was especially pleased with the attitude of the students toward vocational education.

Following the numbers given by the girls chorus the students adjourned to various meetings as announced.

### JUNIOR COLLEGE CLASS ORGANIZE FOR TERM

The junior college class met at the close of assembly this morning and organized the members for the summer term. The following were elected officers:

President, Lester Medlock; vice-president, Clarine Roach; secretary-treasurer, Edgar Harris.

This class includes all students who have received life diplomas but who will not be granted degrees at the end of the summer term. The class plans to meet regularly until the end of the session.

It was decided this morning that the class would make a picnic trip soon, to some place not yet chosen.

### STUDENT LOAN FUND IN EXCELLENT CONDITION NOW

Latest reports show that the student loan fund is now in excellent condition for rendering service to needy students. A total of about \$2000 has been contributed and put into use for the aid of those who would otherwise be forced to stop their school work.

The fund was begun in 1920 when the graduating class donated \$500 to start the fund. Since that time the amount available has increased through donations and from the proceeds of public entertainments.

The chautauqua programs given here last month netted the fund about \$300 while other entertainments have raised the total by various amounts.

So far as is known East Central is the only teachers college in the state in which a student loan fund is available.

Since the establishment of the fund in 1920 a total of forty-four students have been aided by the use of funds. It is hoped that in a few years a sum of \$5000 or more will be available for deserving students.

In no case in which the fund has been used has there been any loss to the total amount by failure to repay the loans when possible. The chief concern of the administration is that the fund may never grow less by such losses.

Applications for aid from the funds are carefully considered by a faculty committee consisting of R. Robinson, H. P. Butcher, E. C. Wilson, Mrs. Ina Mackin, and Mrs. Ruth S. Carter.

All applicants are carefully considered in regard to the time they have spent in school here, the character of their work while here, the probable ability of the student to repay the loan. In no case is the loan over \$100.

P. A. Norris and L. A. Ellison are custodians of the funds after they are contributed.

Mr. and Mrs. N. B. Jewett of Royce, Texas and Mr. and Mrs. Earnest Williams of Dallas, who have been the guest of Mrs. J. M. Taylor for the past two weeks, returned to their respective homes this morning.

## ENDEAVORS KICK ON WORK MENACE

Maintain 12-Hour Day and 7-Day Week Injurious to American Home.

(By the Associated Press)

DES MOINES, July 6.—The 12-hour day and the seven day week for industrial workers is a menace to the American home, the Christian church and free government, according to a declaration contained in a resolution adopted today by the 29th International Christian Endeavor Convention in session here. The resolution was introduced by the executive committee of the United Society of Christian Endeavor and will be sent to the constituent societies.

The text of the statement follows: "Unrest and open warfare in industry constitute a distinct challenge to Christianity. Jesus Christ is for the individual and for the institutions of society, the only sufficient Saviour. We believe that the application of his spirit and principles to the problems and controversies of commerce and trade, will promote good-will and establish peace.

"We recommend those who are acting as pathfinders of a new and Christian social order. Particularly do we commend such organizations as the Colorado Fuel and Iron Company, and the International Harvester Company, for their demonstration of the practicability of the eight hour day, the shop committee, and the wisdom of the participation of workers in direction and control.

"The twelve-hour day, the seven-day week, the espionage system and autocratic control are relics of an industrial absolutism; where they still continue they are a menace to the American home, the Christian Church, and free government; they remain as feudal evils that Christian civilization ought long since to have outlawed. Because of them the church is often unjustly measured by the working world. For vast numbers they stand as barriers in the road to Americanization. They promote unrest and make for bitterness and therefore are not good for a nation. We pledge our best efforts under the wise leadership of our churches to bring them to an end."

### Men's Bible Class

The Men's Bible Class of the First Baptist Church will be held at the McSwain Theatre Sunday morning at 9:45. Mr. Ellison has returned and will teach the class as usual. Mr. McCravy will have charge of the music and lead the singing. Russell Boud will sing. I am sure we are all glad to have Russell back and will delight to have him sing for us at that time. All the men are invited to be present for the class.

Bring your prescriptions to Thompson's Drug Store. 1-7-1t

### HOWDY!

Of course we didn't hire either of them but it seems to us that there was too much difference in the paychecks that Dempsey and Gibbons got for that sojourn in Shelby that ended the Fourth.

### OUR DAILY REMINDER

Did you know there was a summer resort in Ada? There is; it's our FOUNTAIN. Spend a vacation there every day and you will enjoy the summer at home.

## BIBLE THOUGHT FOR TODAY

DO WE?—Jesus said unto him, thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind.—Matthew 22:27.

Evidently many who voted for a change in 1920 are not very well pleased with the change after they got it. At a recent special election in the Eighth congressional district of Iowa, which was carried by the Republican nominee last year by a majority of 7,000, the G. O. P. candidate was elected by a majority of less than 1,000. In the Third Michigan district the falling off was still more striking. Last year, which itself was a bad one for the Republicans, it went Republican by a majority of 8,643, but recently they carried it by only 382. If that sort of thing continues Mr. Harding and a large number of his followers will be relegated to private life next year.

Most, if not all, of the maps showing auto routes are very faulty. We have seen at least half a dozen and not one of them traces the road through Pontotoc county as they really are. For instance the Cotton Belt Highway from Allen to Ada is never shown and a motorist would naturally head another route thinking that no road existed. Another map we saw a few days ago showed the Ozark Train ending at Center. Here is a good place for the Motor Club to get in some good work by way of having the map makers indicate the roads through Pontotoc county correctly.

It is highly probable that much of the agitation for the repeal of the Volstead law is the result of the manipulation by an element of professional agitators that is always working somebody for easy money. It is likely that they have led the booze dealers to believe that there is a chance for a restoration of the saloon and that these fellows are paying goodly sums into the hands of the professional agitators. Of course the agitators are making a lot of noise with the idea of impressing their clients and getting more money out of the deal.

The juries of New York are becoming extremely hard-boiled. One recently assessed the death penalty against a woman, a good looking at that. New York juries evidently consider that equal rights now prevail even as far as the electric chair. Heretofore a woman was readily forgiven of her error if she killed her lover, especially if she were good looking, but if the new spirit is kept alive women will have to go to some other state if they want to bump off their husbands or affinities.

Shelby, Montana, is a new place which was anxious to get before the world. It took a long shot on the financial end of publicity by staging the Dempsey-Gibbons fight, hoping to draw many visitors and possible citizens to see the advantages and beauties of Shelby. The result was a small crowd and a financial failure. The boosters have been out a big pile of money and only the future can prove whether or not it was worth the price. The town gained some publicity but more than mere publicity is necessary to build a thriving town.

Governor Walton and members of the senate are to hold a conference tomorrow. This is a good move for the governor has undoubtedly given too much heed to the advice of the radical socialists who gathered around him and this conference will give him a chance to get the viewpoint of the more conservative element of the Democratic party. It is possible for a considerable amount of good to come of the meeting.

The financial failure of the Dempsey-Gibbons fight will probably have the effect of making promoters a trifle leery hereafter about putting up swollen purses for a scrap, and the pugilists will be forced to modify their demands or quit the game. It had about resolved itself into a matter of money rather than sport and the situation was becoming bad. The best of the fighters can work cheaper than Dempsey did at Shelby and still make good money.

The deposits of the three banks of Ada as shown by the report just published total approximately \$2,500,000. While they go higher than this during the crop season, these figures are a good showing for this season of the year when very little is coming in. All three are in excellent shape, as is shown by the reports and as all are very conservatively managed they are as solid as any banks in Oklahoma in every detail.

Burnett county, Texas, claims the distinction of having organized the first Wilson club. The club is boosting him for another presidential nomination. Evidently Wilson still stands well in the eyes of those Texans, although he can hardly be considered a probability for 1924.

In keeping silent about his attitude towards the presidential nomination next year, perhaps Henry Ford takes the view that 1924 being leap year it is up to the lady to speak up if she wants him.

## SO THIS IS AMERICA! NOW FOR THE "GOLD PAVED" STREET!

## The Forum of the Press

### ILLITERACY BUNK

(Wilson Gazette)

There is a great deal of bunk about the high percent of illiteracy in the south. A great deal of it is being shown up in the public print and exaggerated just to provide jobs for a lot of so-called educational experts. As long as common sense remains a common heritage of the common people, there is no illiteracy. These same people, called illiterate in the south, are the same people of whom Abraham Lincoln spoke when he said, "God must have loved the common people or he never would have made so many of them." A lot of Jesus Christ's apostles were called illiterate men, but they had something which the ages have never been able to forget or forego. Lincoln himself, was called an illiterate by his own party leaders, yet he gave to the age something they have never been able to forget or excel.

Common sense has always been the great guardian of the Anglo-Saxon race. Common sense, coupled with decency surpasses as nation-building material, intellectual proficiency with moral degeneration.

I'll place my bet with common sense and common decency and let you call it illiteracy if you want to.

### THE NEGRO MOVES NORTH

(Oklahoma City News)

Every year half a million negroes cross the Mason and Dixon line going north to stay, according to John Carson, one of this paper's Washington correspondents, in articles already printed.

Migrations of peoples are nothing new. History records many of them. We have had a fair share in our short history. Each has had its underlying political, religious or economic causes. And results, too. Not forgetting that the government is studying this negro movement north. It finds that the negroes are migrating to the north for the same reasons that sons and daughters of farmers have been leaving the farms for the cities during the past decade.

The negro wants life, better wages, amusements, bright lights, and more independence. He finds all those in northern cities, where big employers, their supply of cheap labor from Europe cut off by immigration laws, welcome him into the factories.

In some states, the negro is a person of some importance politically. His vote may switch a state from one party to another. Politicians are always trying to get that. So the negro is welcomed to the north by certain Republican district bosses.

That is significant. It takes Republicans from the south and makes for a solid Democratic south, and a still more preponderantly Republican north.

That's politics. Consider the economics of the negro migration. Behind him, the negroes leave deserted farms. In some states there are thousands of these farms.

Does that mean a lapse in agriculture for the south? Maybe not. It may mean a new land of opportunity for white farmers, with farm machinery, looking for cheap lands out west. Ultimately, it may mean a new, modernized rural south, rivaling the great northwest.

Then there is the social problem. As the negro families by train loads pour into northern cities,

great city blocks of white families will leave their homes to avoid mingling too closely with folks of another race. Some of those white families may even go south.

Yes, the negro may change our whole population with his move north.

## WHEELER PRAISES HARDING POLICY

Anti-Saloon League Attorney  
Delivers Patriotic Address on Law.

DES MOINES, July 4.—President Harding was praised by Wayne B. Wheeler of Washington, attorney for the anti-saloon League of America in his address before the 29th International Christian Endeavor convention in session here tonight. Mr. Wheeler's address was on "Patriotism's Challenge for Law and Order."

"If the teachers of our next generation do not witness the downfall of orderly liberty and the rule of right and see a return to anarchy and the rule of might, Christian Endeavor can and must help to create the sentiment that will make scoffings at the United States Constitution unpopular," said Mr. Wheeler. "President Harding was right in his challenge to New York state recently when he reminded them of Lincoln's great pronouncement that a nation could not remain half-slave and half free, nor can it at this time remain half-loyal and half-disloyal. The president said that the safety of society is in the obedience to law. If you like the law

## RED CROSS BALL BLUE

Makes old clothes look like new.  
YOUR GROCER HAS IT.

## Boils

THERE is a reason for everything that happens. Common-sense kills misery. Common-sense also stops boils! S.S.S. is the common-sense remedy for boils, because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood-power, it builds red-

blood-cells. That is what makes fighting-blood. Fighting-blood destroys impurities. It fights boils. It fights pimples! It fights skin eruptions! It always wins! Mr. V. D. Schaff, 557 15th street, Washington, D. C., writes:

"I tried for years to get relief from a bad case of boils. Everything failed until I took S.S.S. I am now absolutely cured, and it was S.S.S. that did it."

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

## GERMAN TOBACCO THREATENS TO SPOIL JAPAN'S MONOPOLY

(By the Associated Press)

TOKIO.—Although protected by a customs duty of 355 per cent ad valorem, the Japanese tobacco monopoly held by the government had a scare thrown into it last month when the returns of imports showed that German cigarettes were being dumped here and being sold at a price below that charged by the monopoly.

A cry immediately arose for a further increase in the import duty, or, alternately that the government should purchase the German cigarette or tobacco and retail them through the usual sources. Imported cigars and cigarettes are sold in Japan at almost prohibitive prices.

## Dainty Garments of Silk Last Longer

and look better when they are laundered in a modern STEAM LAUNDRY.

There are many things about the modern STEAM LAUNDRY that the public does not know.

DID YOU KNOW that a chemical analysis of all the washing solutions for the various materials is made to determine what solutions are best suited to the various fabrics and which are injurious?

The laundryman knows from scientific tests prepared by expert chemists what to do and how to do it.

THAT IS WHY WE SAY YOUR SILKS, whether on shirts, fine dresses, dainty lingerie or what not will last longer and look better if they are laundered in a modern STEAM LAUNDRY. The guess work is all eliminated.

Call us next week and we can prove all these statements to you. And better, still, come down to our plant any day, we can show you the actual operations. Then, we know you will agree with us.

We use nothing but a specially prepared IVORY soap on all dainty garments.

**WEEKLY CROP REPORT—  
FOR STATE OF OKLAHOMA**

OKLAHOMA CITY.—That there is an over-production of wheat, that foreign countries are increasing their production to fit their needs and that as a result exports from the United States have fallen considerably during the past year are all well recognized facts. A meeting has been called for July 16th at Wichita for the purpose of discussing the means whereby production may be curtailed to at least conform partially with world demands.

In presenting a partial review of the World wheat situation, allow me to first quote some recent estimates on the condition of the crop in foreign countries. Taking Europe as a whole, the growth of the winter wheat crop is vigorous, while development of spring wheat has been delayed on account of cold conditions. Grains continue favorable in Germany, while prospects are less promising in France and Italy. The acreage of wheat in Rumania is 4 per cent less than last year and slight decreases are also given for England and Wales. The outturn of wheat in Egypt appears to be better than the average. Large increases in acreage is noted for the countries of Algeria and Morocco.

Poland's crop is given as 15 per cent above normal, while Japan's forecast is less than last year. The acreage in Canada is reported as less than last year with an excellent condition. In Argentina, it is estimated the production will run nine million bushels more than the year previous and there will possibly be available from that country 121,000,000 bushels for export.

In sum, the world's wheat acreage, or rather the acreage for 20 reporting countries, is practically the same as last year, however, conditions in Europe have been so favorable this year as compared with last that a recent report estimates that Europe will produce 100,000,000 bushels more this year than last. The estimated acreage of all wheat for these 20 countries is placed at 172,618,000 acres for 1923, as compared with 172,380,000 acres for 1922—an increase of only 1 per cent. The average yearly production of all wheat producing countries is estimated to be approximately 4,600,000,000 bushels while the apparent World's consumption during 1922-23 (6 months)

**OH! FOR THE LIFE OF A BEACH COP**

Sergeant Edward Shaw of the Atlantic City force always has had a good record. That's why he's a sergeant. But 'tis said that since being assigned to the beach patrol and armed with a tape line instead of a gun he hasn't missed a second from his "beat." Shaw is responsible for the bathing suits of the fair bathers and of necessity he must measure them to see that they conform with the ordinance.

Sergeant Edward Shaw, Atlantic City, "covers" a beat on the beach.

each year) was 2,605,000,000 bushels.

All the importing countries of the World did not demand during 1922-23 (6 mos. each year) as much wheat as the United States consumed itself for the same length period. These countries called for 568,000,000 bushels to supply their needs, while the United States consumed 568,000,000 bushels. The estimated production of the exporting countries (Canada, United States, India, Argentina, Australia, 1922-23 was 1,922,000,000 bushels. The consumption of the exporting countries was 1,106,000,000 bushels for the year leaving 816,000,000 bushels for export from the one crop which does not include carry-overs from other years.

Wheat exports from the United States have decreased from 194,315,000 bushels (July 1921 to May 1921) to 139,503,000 bushels July 1922 to May 1923. Exports of wheat from Canada have increased materially over those of last year.

J. A. WHITEHURST,  
President State Board of Agriculture.

**Nazarene Revival**

The revival continues with good visible results, so far there has not been a fruitless service, some one saved in every service. Rev. Morgan brought a stirring message last evening on "The Signs of the Times or the Second Coming of Jesus." He pointed out in his message the different things that was spoken of, and showed that the things Paul told Timothy was being fulfilled at this present time, one was that we were living in perilous times, told of the different upheavals in different nations, and the unsettled conditions nationally, that men were lovers of their own selves; that there was a time when men had respect for each other and had confidence in each other; that there was a time when man's word was their bond, on so today.

That men were covetous, (such is idolatry); that at this time men would say "have and get more" but Jesus said "be content with such things as ye have;" that covetousness was one of the prevailing sins of today.

That men were proud and un-thoughtful. There was a time when you accommodated a man or even your own children they showed their appreciation of your kindness, but not so today; that the majority of the people of today claims the world owes them a living and with all the sacrifice you make for their welfare and happiness, they are un-thankful.

He commented logically on each one of the signs, but lay stress on some more than the other. One that every man that has lived very long can see is fulfilled, and that children were disobedient to their parents, there was a time when there was family discipline. The Children had the profoundest respect for their parents, and think it almost a crime to disobey their parents, but not so today. Instead of the children living with the parents, the parents live with their children.

He certainly did the subject justice and showed how important it was to be thoroughly and genuinely saved to be able to stand in these evil days. A good altar service followed the message. Reporter.

**SMASHING AUTOS PASTIME OF IRVING CUMMINGS**

While returning from location recently to the studio after taking scenes for a forthcoming production, Irving Cummings, the star and director of "Man From Hell's River," which comes to the McSwain Theatre Today and who plays the role of the Mountie in this vigorous story by James Oliver Curwood, drove his specially built racing auto over a six-foot embankment. Owing to the speed at which he was traveling the car did not turn over, but leaped through the air and landed on its four wheels. The machine was demolished, but neither Cummings nor his guest who was riding with him were injured.

It has often been said from coughin' You are certain to land in your coffin. But I have also heard tell You've a chance to get well. If you don't get to coughin' too often.

(Woodyard Kindling)

Uncle Sol threw aside the letter he was reading and uttered an exclamation of impatience. "Doggone it, can't people be more explicit!"

What can be the matter, Uncle Sol?"

This letter from home says pa fell out of an apple tree and broke a limb."

Farmers around this neck of the woods are claiming that pedigreed hounds, calico dogs with glass eyes and others of the same specimens are bringing more money than registered cattle these days.

Dr. McCauley says that women like lightning, never strike twice in the same place after having an argument on account of leaving the screen door open.

If you tell a flapper she hasn't enough clothes on to wad a shotgun, she probably don't know the meaning of the comparison because few can see the connection between firearms and sparse clothing.

Honesty at the grave has been depicted on the tombstone tribute paid by a village husband: "In memory of my beloved wife, Mary, queen of cooks."

Men used to howl that a woman's place existed at home, now it is generally conceded that their place is in an automobile.

Nations should be tired of drifting but should be thankful that their debts are still floating.

**Thedford's Black-Draught Liver Medicine (Vegetable) Praised by the Head of a Louisiana Family.**

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine."

"We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unhealthy matters out of your system.
